

ZAYN EJAZ

Email & Web Developer

ABOUT ME

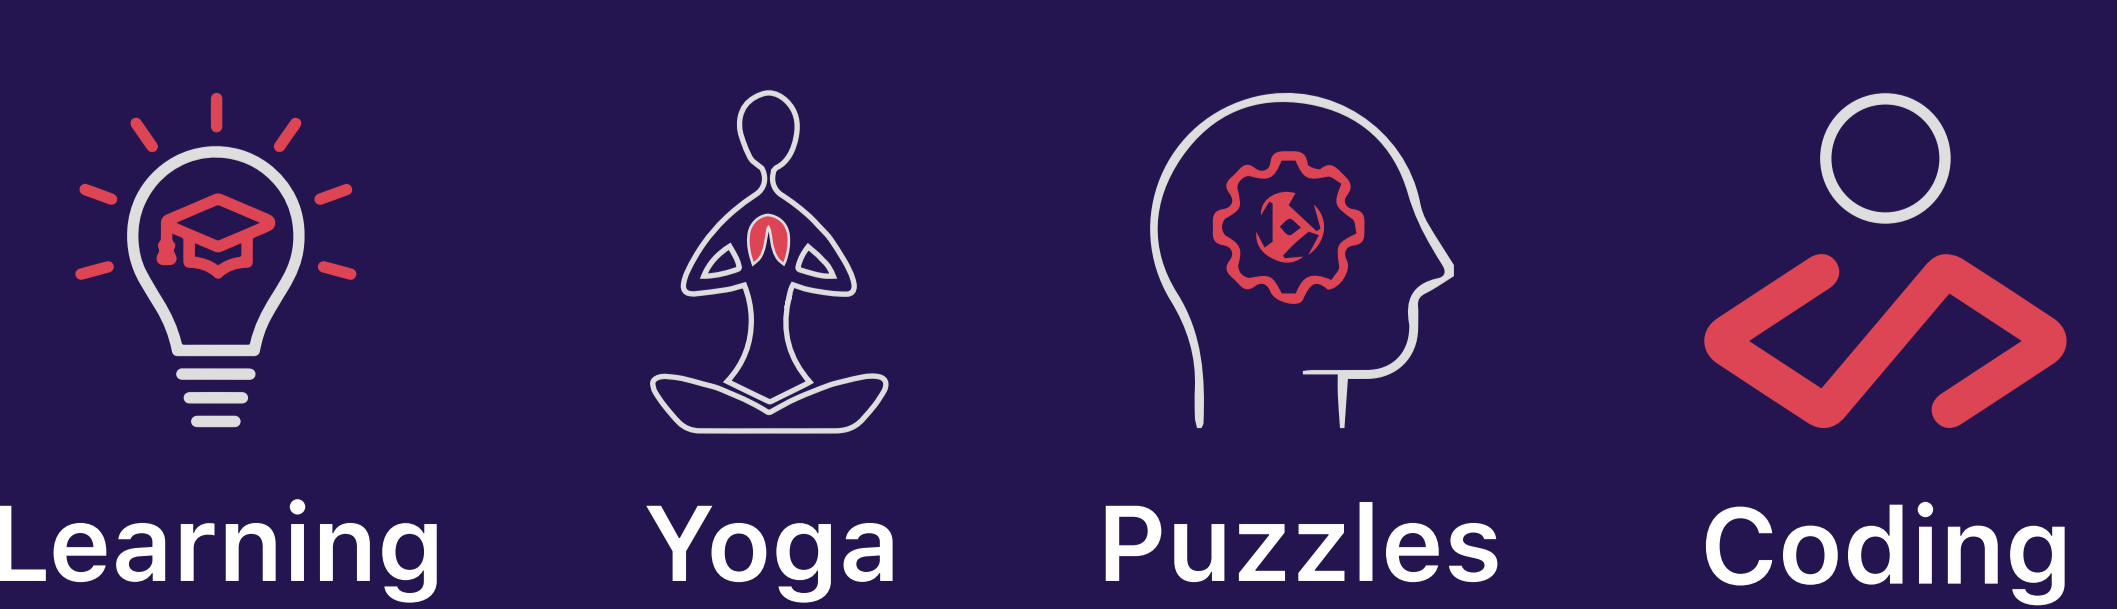

< I'm a web developer, and I love working primarily with HTML Emails & front-end web development. />

I EXPLORE & CREATE

PERSONAL INTERESTS

A LITTLE MORE ABOUT ME

From the moment I printed "<Hello World/>" in the console of my first web development tutorial, I knew I was hooked into the world of web development. But developing the web has never been 'just a job' for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality user experiences. What started with a simple "<Hello World/>" has become a full-fledged passion that only gets more exciting as every day goes by.

Below you'll find some projects that showcase my skills and general background in contributing to a better world wide web.

EXPERIENCE

zaynejaz.com
Freelance Web Developer
Font-End Web Development
Hand-coding the portfolio from scratch, I utilized various libraries, CDNs, APIs and web technologies to give the site a smooth, simple, contemporary feel. While freelancing, my aim is to help give local businesses a better, improved web presence providing them with a better chance to grow their business in today's digital world.

zaynejaz.github.io/#heAppleProd
Apple | All New Products
HTML Email
Hand-coded responsive promotional email based on image of Apple's email design, using various GIFs to 'bring the email design to life'.

zaynejaz.github.io/#heNatGeo
National Geographic | Issue 169
HTML Email
Hand-coded email newsletter based on email design of National Geographic's email, relying heavily on media queries for email responsiveness.

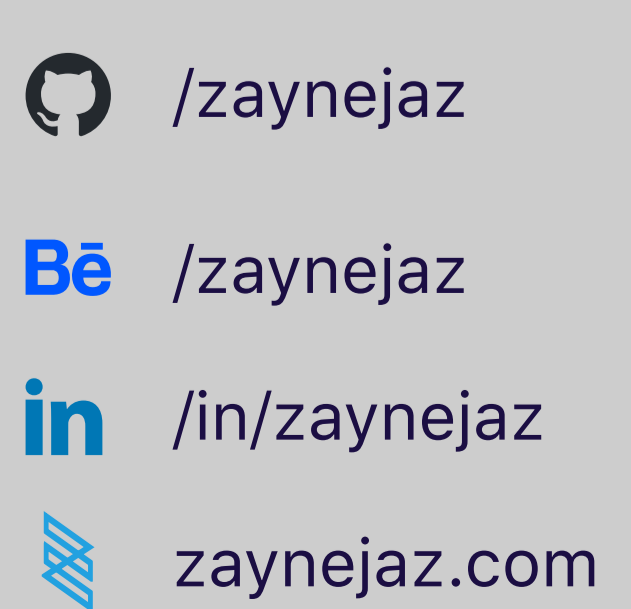

zaynejaz.github.io/#heNetflix
NETFLIX | The Punisher
HTML Email
Hand-coded multiple promotional emails based on Netflix's email design, illustrating a different, look and feel whilst maintaining the HTML markup.

zaynejaz.github.io/#heSqSp
Squarespace | Account Information
HTML Email
Hand-coded transactional email based on Squarespace's email design, allowing for information to be passed to a user regarding their account.

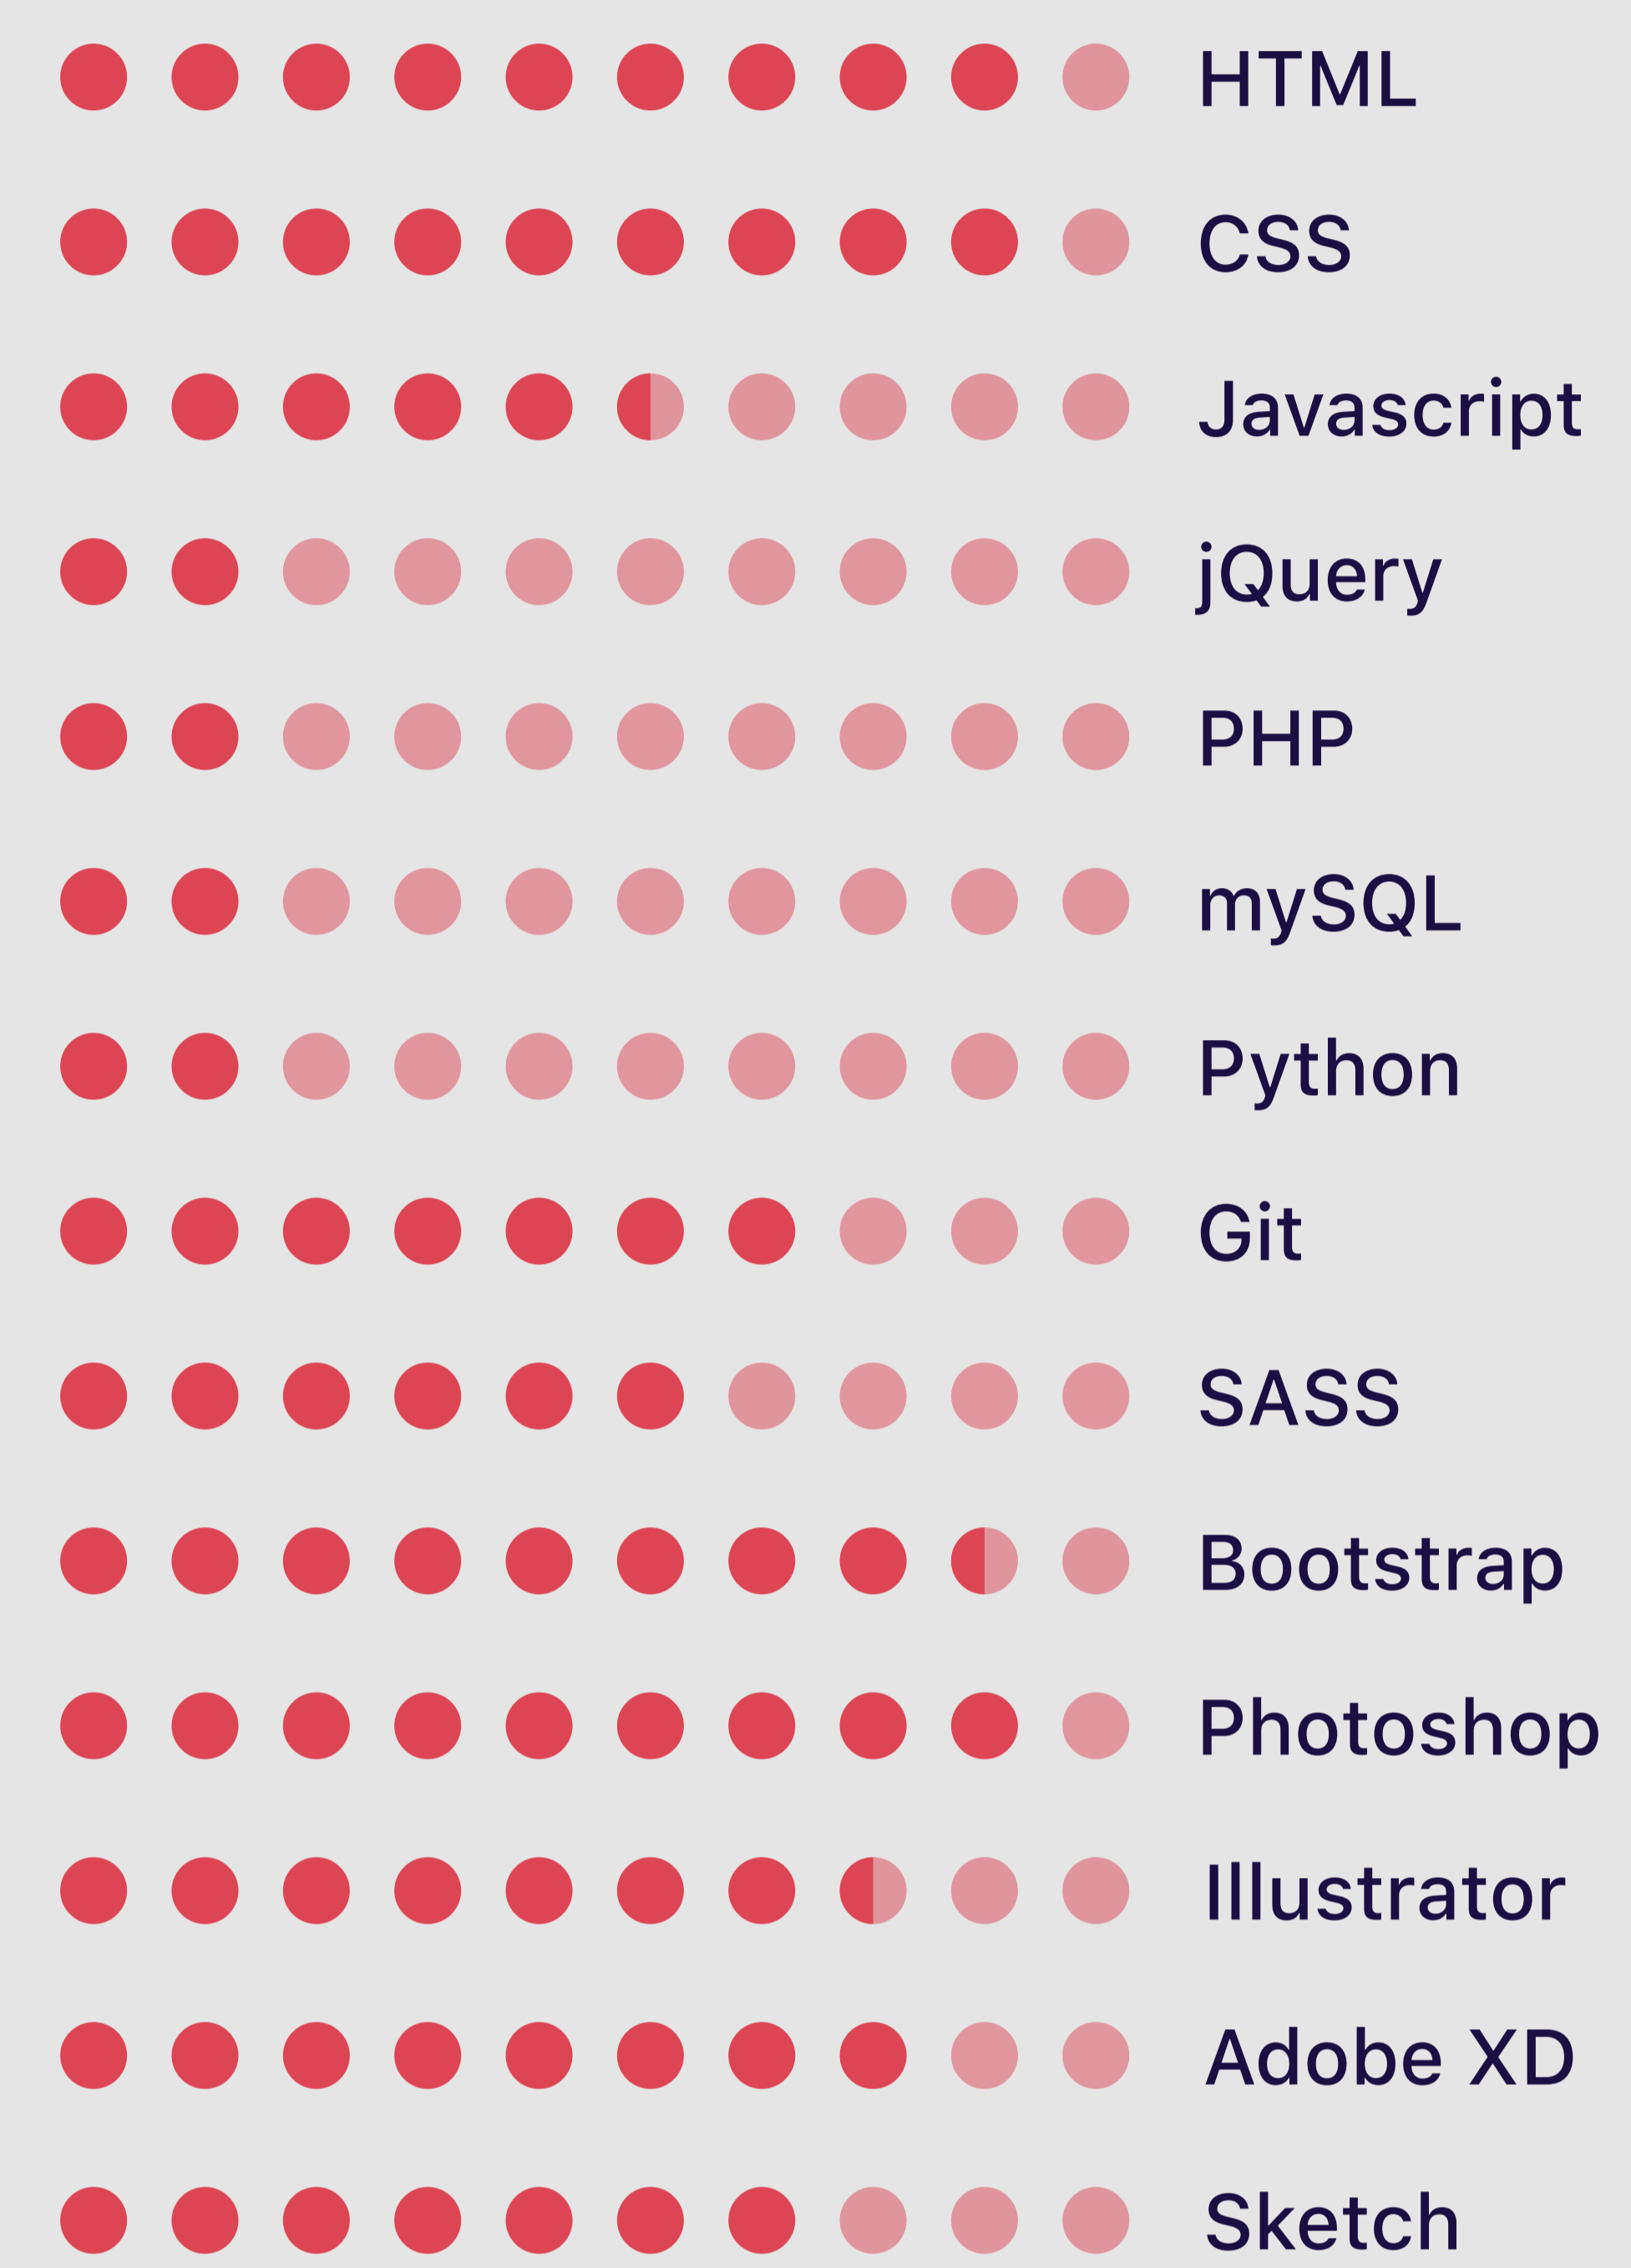

zaynejaz.github.io/#lpCP
Coding Phase | Competition
Landing Page
Awarded second place for my entry to a competition for creating a landing page for Coding Phase LLC's www.htmlemaildeveloper.com website.

zaynejaz.github.io/#lpFF
FlexiFarm
Landing Page
Created a landing page for a (imaginary) tech startup that provides B2B Services to in the Food and Agricultural sectors. Relies on Bootstrap and jQuery for responsiveness and event-handling.
